NVQ Circular 04/2013

Equivalence of National Diploma in Engineering Sciences (NDES) – Electrical Engineering Programme to NVQ Level 6

National Diploma in Engineering Sciences is a four year fulltime programme, conducted by the Institute of Engineering Technology (IET), NAITA, Katunayake. The programme consisted with basic, general and specialization components. Students are expected to specialize either in Electrical power, Electronic, Telecommunication or for all Electrical specialties.

On the request of IET, NAITA, Katunayake, NDES in Electrical Engineering was mapped with NVQ Level 6 by a panel of Senior Chartered Electrical Engineers after evaluating a comparison report submitted by a subject specialist and found that it meets the credit requirements of NVQ Level 6. However, according to the recommendations proposed by the panel, candidates who successful at the NDES programme shall provide adequate evidences of industry experiences those relevant to employability competencies in order to satisfy the total requirements of NVQ Level 6 and thereafter such candidates are eligible for an NVQ Level 6 equivalence certificate.

After forwarding the recommendations and requirements of above evaluation, the Governing Council of the Commission approved to equate NDES Electrical Engineering Programme in to NVQ Level 6.

Sum of LKR 1000.00 will be levied as processing fees from the prospective candidates (NDES certificate holders) for issuing of NVQ equivalence certificate.

Dr. S.D.R. Perera
